

Who developed the world's first LNG tanker?

Who opened up the Asia-Pacific market by exporting LNG to Japan in 1969?

Who licensed their Optimized Cascade® Process for four of the last seven LNG projects in Australia? *(Hint: It's the same liquefaction technology that is expected to produce nearly 25% of the world's LNG by 2021.)*

One Answer: ConocoPhillips

With all that expertise and experience in LNG, shouldn't you be talking to ConocoPhillips, too?
